

FUND GOALS

- Invest in quality companies at a significant discount to their intrinsic value, providing opportunity to deliver strong results over time as solid managements drive both growth in value and reduction in the discount.
- Seek to excel in Value-driven markets, and to outperform the benchmark on average over time.
- Outperform the benchmark in up markets.

INVESTMENT GUIDELINES

- Purchase stocks at a significant discount to our proprietary estimate of intrinsic value
- Strong financial position
- Prefer better companies in better industries
- Company management has a feasible action plan in place to resolve real or perceived problem
- Primarily Large Cap stocks
- Typically, no more than 4% (at cost) in any one stock and no more than 15% (at cost) in any one industry

ANNUALIZED RETURNS

through 12/31/21

	MAVFX	S&P 500	Russell 1000 Value
4Q, 2021	7.08%	11.03%	7.75%
Year-to-Date	32.03%	28.71%	25.12%
1 Year	32.03%	28.71%	25.12%
3 Years	23.65%	26.07%	17.62%
5 Years	13.91%	18.47%	11.14%
10 Years	13.38%	16.55%	12.95%
Since Inception*	8.84%	10.00%	9.19%

*The inception date is July 1, 1996 when Matrix took over as sub-advisor for the Fund. Matrix became the advisor for the Fund on May 11, 1997.

Returns less than 1 year are not annualized.

Performance data quoted represents past performance and does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance of the Fund may be lower or higher than the performance quoted. Performance data to the most recent month end may be obtained by calling (800) 366-6223 or visiting our website. Performance figures reflect fee waivers in effect; in the absence of fee waivers, total returns would be lower.

FUND STATISTICS

Portfolio P/E (Forward)	16.8x
Price/Book	3.1x
Turnover Rate	25.7%
Gross/Net Expense Ratio**	1.21% / 0.99%

**The Advisor has contractually agreed to reduce fees through 10/31/2022

QUARTERLY HIGHLIGHTS

- The MAVFX Fund had a solid 4th quarter and a very strong year. For the quarter, the LCV portfolio modestly trailed the Russell 1000 Value Index, but handily outperformed the index for the year.
- Looking ahead, even after strong results in 2021, we believe the Fund is well-positioned for further gains in 2022 as the economy recovers from COVID. The companies in the Fund's portfolio showed very good operating results in 2021 under very trying circumstances and, we believe, remain significantly undervalued.
- On December 31, the Fund's P/E multiple was 16.8 times estimated 2022 earnings which is a discount to the S&P 500 Index's 21.4 times earnings.

PORTFOLIO MANAGER

DAVID KATZ

35 years at Matrix / 37 years in Industry

KEY DIFFERENTIATORS

- 30+ years of continuity of leadership and philosophy at the Advisor. Portfolio team averages 20+ years at the firm. Principals have significant personal assets invested alongside clients.
- Eight proprietary intrinsic value models used since the firm's inception allow for identification of undervalued stocks in all industries in all market environments.
- "Go Anywhere" ability allows us to be opportunistic, believing that attractive undervalued investments can surface in any sector at any time. We are not benchmark-driven.
- Research-based, high conviction approach leads to a portfolio of 35-40 names, providing for a favorable mix of performance potential and diversification.
- Focus on better companies in better industries helps to avoid value traps.

Definitions

Earnings Growth - The annual rate of growth of earnings from business

EPS Growth - Annualized compound growth rate of earnings from the business on a per-share basis

P/E Ratio - The Price/Earnings (P/E) ratio represents the median of the portfolio's individual stock P/E's. Individual stock P/E is calculated by dividing the current price by forward earnings

Price/Earnings for individual stocks are excluded when the figures are not meaningful, which includes negative earnings per share or depressed earnings per share

Price/Book - The Price/Book (P/B) ratio represents the median of the portfolio's individual stock P/B's. Individual stock P/B is calculated by dividing the current price by current book value.

Price/Book for individual stocks are excluded when the figures are not meaningful, which includes negative book value or statistically anomalous book value

All data is through (or as of) 12/31/21 unless otherwise noted. Source: Matrix Asset Advisors, Bloomberg, eVestment Alliance.

The S&P 500 Index measures the performance of 500 publicly traded companies, which are among the largest in the United States. The S&P 500 Index does not incur expenses and is not available for investment. The Russell 1000® Value Index measures the performance of those Russell 1000® Index companies with lower price-to-book ratios and lower forecasted growth values. The Fund's holdings are on a trade date basis and may change at any time due to ongoing portfolio management. References to specific investments should not be construed as a recommendation by the Fund or Matrix Asset Advisors to buy or sell the securities.

The Fund's investment objectives, risks, charges and expenses must be considered carefully before investing. The prospectus contains this and other important information about the investment company, and it may be obtained by calling 1-800-366-6223, or visiting www.matrixadvisorsvaluefund.com. Read it carefully before investing.

Mutual fund investing involves risk. Principal loss is possible. The stock of Value companies can continue to be undervalued for long periods of time and may not realize its expected value. The value of the Fund may decrease in response to the activities and financial prospects of an individual company.
